Participants needing only access to the Internet for email or office purposes should utilize the computer centres or wireless zones.

The Blogger's Loft is part of a pilot project by the UNFCCC secretariat with the United Nations Foundation that seeks to explore options for the participation of new “digital media” both physically and virtually in the UNFCCC process. During the Conference, all online media and bloggers using the Blogger's lounge will also be able to attend a series of interactive “digital media conversation” events to be held in the Desierto Press Conference Room in the Cancunmesse starting on Saturday, 4 December. Rio Conventions' Ecosystems and Climate Change Pavilion

The **Rio Conventions' Ecosystems and Climate Change Pavilion** is a collaborative outreach activity involving the Rio Convention secretariats, the Global Environment Facility and other important partners. In Cancun, the Ecosystems Pavilion will have a physical 'base' at Cancunmesse, but also has events at other locations, providing a diverse range of opportunities to discuss the linkages between biodiversity, climate change and sustainable land management.

During the course of COP 16/CMP 6, negotiators and other key decision-makers, scientists, and practitioners will be able to discuss the links between forest biodiversity and adaptation and mitigation; the role of oceans; indigenous peoples and communities, water, the role of protected areas, climate change biodiversity loss, desertification and land degradation, and financing.
